OLD TARTAR TRAILS

By A. S. KENT

Central Asia has always been a forbidden land, except to the few who have had courage to face her thousand-mile-long trails, her mountain passes, and the nomads who range hither and thither across her bleak plateaus in search of game or grass. Mr. Kent has visited her ancient cities and lamaseries, now inaccessible, and tells of his experiences and difficulties. Many photographs bring us nearer to this strange people.

THE GREAT RIVER

The backbone of China is her great river—the Yangtzekiang. No one can fully understand China's politics, people or prospects without a knowledge of the world's greatest river. It is a closed book at present; its acquaintance can, however, be made by everyone interested in China who cares to read this book, which is well illustrated.

THE GREAT RIVER

The backbone of China is her great river—the Yangtzekiang. No one can fully understand China's politics, people or prospects without a knowledge of the world's greatest river. It is a closed book at present; its acquaintance can, however, be made by everyone interested in China who cares to read this book, which is well illustrated.

OLD TARTAR TRAILS

By A. S. KENT

Central Asia has always been a forbidden land, except to the few who have had courage to face her thousand-mile-long trails, her mountain passes, and the nomads who range hither and thither across her bleak plateaus in search of game or grass. Mr. Kent has visited her ancient cities and lamaseries, now inaccessible, and tells of his experiences and difficulties. Many photographs bring us nearer to this strange people.

OLD TARTAR TRAILS

By A. S. KENT

Central Asia has always been a forbidden land, except to the few who have had courage to face her thousand-mile-long trails, her mountain passes, and the nomads who range hither and thither across her bleak plateaus in search of game or grass. Mr. Kent has visited her ancient cities and lamaseries, now inaccessible, and tells of his experiences and difficulties. Many photographs bring us nearer to this strange people.

THE GREAT RIVER

The backbone of China is her great river—the Yangtzekiang. No one can fully understand China's politics, people or prospects without a knowledge of the world's greatest river. It is a closed book at present; its acquaintance can, however, be made by everyone interested in China who cares to read this book, which is well illustrated.

OLD TARTAR TRAILS

By A. S. KENT

Central Asia has always been a forbidden land, except to the few who have had courage to face her thousand-mile-long trails, her mountain passes, and the nomads who range hither and thither across her bleak plateaus in search of game or grass. Mr. Kent has visited her ancient cities and lamaseries, now inaccessible, and tells of his experiences and difficulties. Many photographs bring us nearer to this strange people.

OLD TARTAR TRAILS

By A. S. KENT

Central Asia has always been a forbidden land, except to the few who have had courage to face her thousand-mile-long trails, her mountain passes, and the nomads who range hither and thither across her bleak plateaus in search of game or grass. Mr. Kent has visited her ancient cities and lamaseries, now inaccessible, and tells of his experiences and difficulties. Many photographs bring us nearer to this strange people.

THE NORTH-CHINA DAILY NEWS

AND

THE NORTH-CHINA SUNDAY NEWS

To the Reader

The "North-China Daily News," published every day of the week, with an Illustrated Magazine Section on Sundays, writes the history of China. It records the pulse of its politics; it reports the conditions of its finance and its markets; and it chronicles the daily doings of its people.

To the Advertiser

The greatest purchasing power in China is that possessed by readers of the "North-China Daily News." It is the newspaper which is found in every office, consular or commercial; it is most frequently quoted both by the foreign and vernacular press; and it is the one newspaper which combines a quality with a quantity circulation—being the largest both in content and circulation in China. It is the only newspaper publishing periodical audited circulation statements.

THE GREAT RIVER

The backbone of China is her great river—the Yangtzekiang. No one can fully understand China's politics, people or prospects without a knowledge of the world's greatest river. It is a closed book at present; its acquaintance can, however, be made by everyone interested in China who cares to read this book, which is well illustrated.

THE GREAT RIVER

The backbone of China is her great river—the Yangtzekiang. No one can fully understand China's politics, people or prospects without a knowledge of the world's greatest river. It is a closed book at present; its acquaintance can, however, be made by everyone interested in China who cares to read this book, which is well illustrated.

THE NORTH-CHINA SUNDAY NEWS

To the Reader

The "North-China Daily News," published every day of the week, with an Illustrated Magazine Section on Sundays, writes the history of China. It records the pulse of its politics; it reports the conditions of its finance and its markets; and it chronicles the daily doings of its people.

To the Advertiser

The greatest purchasing power in China is that possessed by readers of the "North-China Daily News." It is the newspaper which is found in every office, consular or commercial; it is most frequently quoted both by the foreign and vernacular press; and it is the one newspaper which combines a quality with a quantity circulation—being the largest both in content and circulation in China. It is the only newspaper publishing periodical audited circulation statements.

It is a closed book at present; its acquaintance can, however, be made by everyone interested in China who cares to read this book, which is well illustrated.
